MOVEMENT SEATING

Alphabet Rocker

The refined design of Alphabet Seating supports the many ways that students move with best-in-class strength and durability. Engineered for mobility, this gem of a chair provides movers of all sizes a chance to relax or burn off a little energy with the most satisfying sit-around. 14" height works best in Pre-K.

Discover Rocker

The chair that reinvented student seating is now redefining movement. The Discover Rocker offers a harmonic blend of flexibility and support with just a touch of motion. Research shows that students benefit from flexible seating options that allow them to move. 14" height works best in Pre-K.

MOV Stools

MOV is an active stool that promotes user movement and activity. Students love to move, and MOV supports that natural urge in a fun and productive way. The attractive and simple design with a wider footprint makes MOV extremely stable, safe, and fun to use. A 14" height works best in Pre-K.

Students speak about movement and engagement.

SHAPE TABLES

Trapezoid Shape Table

The Trapezoid is a variation of the traditional rectangle with various configuration options to support larger groups. Group two Trapezoids together to create a hexagon shape that can accommodate six learners.

Horseshoe

Horseshoe is a versatile, large top that can be used alone or combined to create dynamic learning environments. It is 60" x 66" top.

Nova Shape Table

Nova has a large 60" work surface that can support 4–8 students. It also works with other popular shapes, such as Expanse, Gravity, and Nebula, as well as Wanderer student desks, for versatility and flexibility.

For all the shape tables, use adjustable post legs in juvenile (13"–18") or table height (19"–29") or fixed height legs (25") for Pre-K. Consider tables set at 27" as standing work surfaces for younger students. Add wheelbarrowed locking casters for easy mobility.
