

ALUMNI

EDUCATIONAL SOLUTIONS

Alumni Educational Solutions

We have an obligation to be the Teacher's Assistant, the Architect's Inspiration and to support students in their learning environments.

Our primary goal is to inspire creative thought and create innovative classroom environments that allow adaptability to the ever changing ways of learning while giving students the opportunity to excel.

Educational practices are moving at the speed of light. The best way to assist the teacher is to design flexibility into the classroom. The ability to adapt learning environments at the same pace is critical to allow educators to leave no child behind.

We want to see each child given the opportunity to advance and receive the newest teaching methods.

All our products are designed, engineered and manufactured to strict quality standards that are inspected numerous times during our process, including a final inspection prior to packaging for shipment.

We look forward to making your classroom furniture purchase an enjoyable experience.

y5 THE MOST COMPELLING 21ST CENTURY CLASSROOM SOLUTIONS

Collaborative Learning encourages active participation in the classroom. Working in smaller groups leads to discussions that develop a greater understanding of the subject matter among all participants.

The y5 Mission

Greater Understanding

Higher Achievement

Significantly Better Results

The foundation for a productive 21st Century Collaborative environment begins with the ability to position students in the most effective groupings. Studies show the most effective group sizing is 5. In a group of 5, eye contact through cross-directional positioning plays a major role in how all participants will participate and interact with one another.

Each group requires a teacher-selected mix of Overachievers, Middle-achievers and Underachievers. These diverse groupings will ensure engagement and participation by everyone in the group. With the suitable environment in place, the teacher becomes the 'Conductor of the Orchestra'; they will continually steer the comprehension of the subject matter onto its correct course.

Without a collaborative environment, a 50-minute class with 30 students would only allow the teacher just over one minute with each student and does not including any of the time spent teaching the lesson.

So Y5?

Studies show that groups of 5 are the most effective grouping number for collaborative learning:

If you measure the number of possible social interactions with varying groups, the optimal group size appears to be 5. The number of social interactions begins to explode in groups with more than 5 people.

– Sheila L. Margolis, PhD President
Workplace Culture Institute

Researchers report that, regardless of the subject matter, students working in small groups tend to learn more of what is taught and retain it longer than when the same content is presented in other instructional formats.

– Barbara Gross Davis
Tools for Teaching - Stanford University

Misperception: Bigger is better. Actually: Excessive size is one of the most common—and also one of the worst—impediments to effective collaboration.

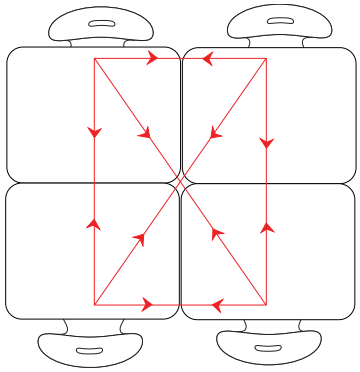

– J. Richard Hackman
Harvard Business Review

21st Century Learning

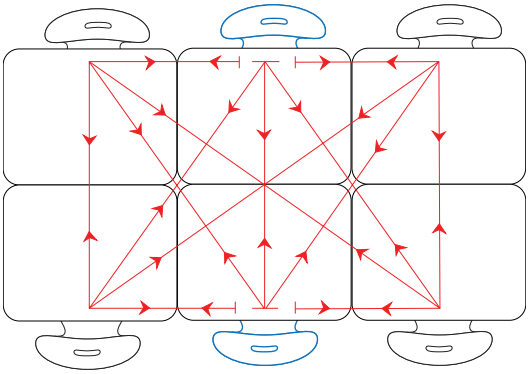

Connecting Mind and Body

In the K-12 Learning Space, our goal is to empower students to have equal influence and discussions within the group through the proper arrangement of desks and seating positions. A study from the University of Montana indicates that "Round or Pentagon Groups" create a 'Web Network', a cross-directional method of communication in which members are encouraged to communicate directly with each other, resulting in information being shared more rapidly and each member feeling they have an equal influence within the group.

Traditional Group of 4

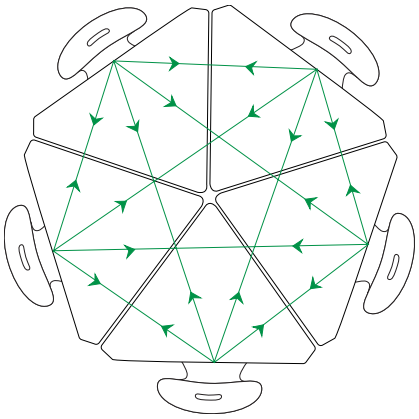

Traditional Group of 6

Group Leader Role
Created By Default
(Blue Chair)

Progressive Group of 5

Traditional Rectangular Groups
In the Traditional Rectangular Group of 4, there is often a pairing off of partners. Traditionally, this is the position that negotiators would prefer to be in and is recognized as a "Face Off" position.

When one more participant is added on each side of the group, creating a Traditional Rectangular Group of 6, two additional problems are created that are not conductive to a K-12 Collaboration:

1. A lack of visual contact with every group member occurs
2. The middle person in each row of three will typically end up taking on a dominant role of being a mediator or group leader

Progressive Round or Pentagon Groups
This type of seating arrangement is not new but can provide insight into the way that human interactions can be enhanced. The most famous example of this was King Arthur and the Knights of the Round Table: Every Knight that sat around the table was considered to be an equal to his peers and there was no central power position.

In the Progressive Round or Pentagon Group, visual contact is inclusive and there is no dominant seating position in the group. The ability to visually see all of the group members is vitally important since it promotes the ability to interact and share ideas. Through visual contact, body language is displayed in four different ways:

1. Head Movement
2. Facial Expressions
3. Body Posture
4. Hand and Finger Gestures

Simply by having visual contact with all group members, a quick determination about the participation levels can be made:

- Are all group members paying attention?
- Are all group members participating?
- Is there a sense of agreement or disagreement among the participants?
- Is anyone choosing not to participate?

This arrangement creates a more cooperative situation for discussion and a sense of equality.

The Alumni Y5 Collaborative Groupings are designed around the knowledge that we have gained through these recognized studies. The Alumni Y5 Practices implement this knowledge in the most effective manner, creating the footprint for the most successful outcomes in the roll-out and implementation of 21st Century Collaborative Learning.

At Alumni, we strongly believe in following the path of research and proven concepts when developing furniture solutions. Our goal is to create the absolute best opportunity for all students to succeed within their education.

21st Century Classroom Solutions

Alumni y5 Collaborative Groupings

The foundation for the implementation of a productive 21st Century Collaborative Learning environment begins with the ability to position students in the most effective collaborative groupings; studies show that the most effective grouping size is 5. Supportive research has been pivotal in the design and development of the y5 Flow, Pente and Idea Desks

The original Flow Desk is a classroom solution that is appropriate for both traditional and progressive teaching styles to help implement 21st Century Learning concepts into the classroom. The unique shape and size of the Flow takes into consideration classroom size and is a solution that allows for multiple, functional group configurations while providing the option of individual testing or independent study.

For more information on the Flow Desk, please turn to pages 138-139.

Flow Desk

Pente Desk

The Pente Desk has a unique triangular shape that was designed to increase collaboration through the y5 approach which is both a functional and a practical solution for 21st Century Learning. In their ideal groupings of 5, the Pente Desk can be used as a tool for students and teachers to implement common core learning concepts into the classroom.

For more information on the Pente Desk, please turn to pages 140-141

The Idea Desk has a unique pentagonal shape that takes into consideration the need for furniture that is both a functional and a practical solution for 21st Century Learning. In their ideal groupings of 5, the Idea Desk supports a Web Network-type of communication, allowing for cross-directional dialogue to occur during collaboration.

For more information on the Idea Desk and Center, please turn to pages 142-143

Idea Desk

21st Century Classroom Solutions

Alumni Complete Product Blend

The Alumni Soft Seating collection consists of three series: Chat, Converse, and Lounge. At Alumni we believe soft seating isn't strictly for libraries, common areas, or breakout spaces. Soft seating can be incorporated into every learning environment, and with the addition of Alumni's three new collections, we have ensured there is a soft seating option for every type of learning environment from the classroom to the cafeteria.

For more information on Alumni's Soft Seating collection, please turn to pages 104-133

The Alumni Makerspace Works Collection consists of Stools, Benches, and Tables. All products are a practical and adaptable solution for several classroom settings. By having an assortment of products and finishes available, all Makerspace products can be utilized in all learning environments.

For more information on the Makerspace Works Stools and benches, please turn to pages 96-99

For more information on the Makerspace Works Tables, please turn to pages 292-297

The Alumni Computer and E-Sports Tables are the perfect addition to schools as these spaces encourage engagement from students to prepare them for potential STEAM-related careers in the flourishing E-Sports industry. At Alumni we understand the need to evolve and provide schools with the right products for these specialized environments to ensure students are set up for success.

For more information on Computer and E-Sports Tables, please turn to pages 284-291

The Alumni Accelerator Active Learning Centers have been designed to be multi-functional and versatile as they can be equipped with a variety of options to ensure they meet the needs of today's fast-paced classroom environments.

For more information on the Accelerator Active Learning Centers, please turn to pages 332-351

The Alumni Strive Casework collection is the perfect addition to any learning environment. In combination with other products or on its own Alumni's Strive collection can be incorporated into every grade level from Pre-K to Post Secondary. Many pieces have been specially designed to work with Alumni's Soft Seating collection to create flexible multi-use workspaces, collaboration spaces, and media centers that can be used in any school at any grade level.

For more information on Casework, please turn to pages 316-329

Alumni's New Product Highlights

Innovation, Creativity, and Adaptability

At Alumni we are continuously creating innovative products that can be incorporated into every type of learning environment. We strive to create new products that will inspire teachers and students alike in the classroom. We continue to develop existing product lines by adding new sizes, specialty options and even material choices to better serve our customers. Explore some of Alumni's newest products below:

Alumni Savvy Chair

The Savvy Chair is the newest Chair family to Alumni's product lineup. Available in every chair base: 4-Leg, Caster, Cantilever, Cafe 4-Leg, Cafe Cantilever, Gas Lift, and Rocker there is a solution for every student, teacher and classroom. With a patent-pending design, this innovative chair features built-in backpack hooks for students to have quick and easy access to their supplies that can hold up to 20 lbs. By offering the Savvy Chair in both junior and senior sizes it can easily be incorporated into all grade levels from Pre-K to Post Secondary. The Savvy Shell is also available in Combo Desks.

Learn more about this innovative Chair see page 43.

Learn more about the Savvy Combo Desk on page 210-211.

Poly Balance Stool

The Poly Balance Stool is a new twist on Alumni's original Balance Stool as it is now offered with a polypropylene seat. Available in both Balance Stool sizes: 15"-19" and 21"-26" and offered in all of Alumni's polypropylene colors to ensure there is an option for all learning environments. Use the Poly Balance Stool on its own or use it with the Balance Stool or other Alumni Chairs to create the perfect seating mix for all educational spaces.

Learn more about the Poly Balance Stool on page 95.

Soft Seating: Chat Series

The Chat Series is part of Alumni's newest Soft Seating collections. With various shapes and sizes offered, there is a seating option for all learning spaces. Products in this collection include the Flow and Pente-shaped pods that match two of Alumni's most popular collaborative desks. With other shapes available in the Chat Series, they can be used on their own or in collaboration with other pieces in the collection to create a fun and collaborative seating space, perfect for all grade levels.

Learn more about the Chat Series on page 104-113.

Soft Seating: Converse Series

The Converse Series is part of Alumni's newest Soft Seating collections. All pieces in this collection have been designed with innovation and collaboration in mind to enhance libraries, student lounges, and classrooms. Various shapes and sizes are available offered to ensure there is a seating option for all spaces making the Converse Series the perfect addition to every learning environment.

Learn more about the Converse Series on page 116-121.

Soft Seating: Lounge Series

The Lounge Series is part of Alumni's newest Soft Seating collections. All pieces are a stylish seating alternative that will elevate any learning space. With a wide variety of shapes and sizes, the Lounge Series brings color and comfort to all environments at all grade levels. A multitude of configurations can be created making it the perfect addition to any space for collaborative group work or creating a quiet place to read or complete independent schoolwork done.

Learn more about the Lounge Series starting on page 124-133

Tri-6 Mini Desk

The Tri-6 Mini Desk is a new size addition to Alumni's original Tri-6 Desk. When in its ideal group configuration of 6, it can be rearranged to maximize the use of limited space commonly observed in today's classroom. The Tri-6 Mini Desk is the perfect solution for all 21st Century Learning Spaces.

Learn more about the Tri- 6 Mini Desk on page 160-161.

Squeeze Desk

The Squeeze Desk is Alumni's newest Collaborative Desk. It has a unique and fun top shape while still providing a larger workspace for students. The Squeeze Desk has been designed to be a suitable desk option for students of all grade levels. In its ideal group configuration of 4, it can be rearranged to maximize the use of limited space commonly observed in today's classroom. Perfect solution for all 21st Century Learning Spaces.

Learn more about the Squeeze Desk on page 162-163.

Alumni's New Product Highlights Continued

Innovation, Creativity, and Adaptability

Integrity Oval T-Leg Desk

The Integrity Oval T-Leg Desk is a new twist on the classic rectangle desk. This innovative desk is completely mobile and is a perfect desk upgrade for both traditional and 21st Century Classrooms. This desk is customizable to fit a variety of needs as it is available in both Laminate or Hard Plastic Tops, fixed or adjustable height and has several different accessories that can be added.

Learn more about the Integrity Oval T-Leg Desk on page 179.

Nesting Flip Sit Stand Desk

The new Alumni Nesting Flip Sit Stand Desk is contemporary, versatile and adaptable for use in many learning environments. It can easily flip up and nest for quick and convenient storage and is designed with an integrated cup holder.

Learn more about the Nesting Flip Sit Stand Desk on page 172.

Privacy Workstation

The Privacy Workstation has been designed to be used as an individual workstation or grouped together. The modern design and the available color options help to bring the study carrel into the 21st Century for quiet study. These workstations can be integrated into libraries, media centers, testing centers, or wherever individual workstations are needed with ease. Having multiple sizes and add-on units available makes this workstation the perfect addition to every school.

Learn more about the Privacy Workstation starting on page 201

Casework

The Strive Casework collection is the newest addition to Alumni's ever-growing product lineup to ensure we are keeping up with the needs of today's classrooms and learning environments. Our casework units can be used everywhere from Pre-K to Post Secondary either on their own or paired with Alumni's Soft Seating Collection.

Learn more about the Strive Casework Collection on page 316-329.

Black Chrome

The addition of Black Chrome to our material library adds extra visual appeal. It can be used on any product that was previously offered in our standard Chrome.

Explore photos throughout our catalog showcasing chrome, and for the full Alumni material selector please see page 356.

New Polypropylene and PVC Edge Colors

At Alumni we believe in adding new colors and finishes to our product lineup to help brighten up any space and to match the needs of our customers. With the addition of our five new Polypropylene, and PVC Edge colors: Ocean Blue; Lime; Peacock; Tangerine; and Aubergine we have a new color for every space.

Explore photos throughout our catalog showcasing our new colors, and for the full Alumni material selector please see page 356-357.

Black Laminate

Alumni's Black Laminate is a great addition to Alumni's material library. It is the perfect color addition for E-Sports, Science, and other STEAM-related classrooms. Tables and desks look amazing when paired with a bold and bright PVC edge color.

Explore photos throughout our catalog showcasing Black Laminate, and for the full Alumni material selector please see page 356.

Our Solutions

Today's classrooms are ever-changing and so are the needs of both students and teachers alike. At Alumni we strive to meet these needs with new and innovative solutions for all types of learning environments. We have solutions for every type of educational space, from Early Education to High School, to upcoming spaces like E-Sports.

Junior Classroom

At Alumni we understand that Junior classrooms like Early Education, Pre-K and Kindergarten are the beginning of a student's learning journey. These spaces should be thought out and designed with creativity and innovation in mind to give students the best possible opportunities when continuing their learning experience in the years to come. It all starts with a student's early education, and having a well-thought-out space can be another tool to help prepare students for when they transfer to elementary school.

The Smooth Chair Shell features a smooth, rib-less back with a blow-molded cavity to provide high back/shoulder support making it easy to clean. Its waterfall seat edge and hourglass shape promotes better circulation and proper lumbar/shoulder support by reducing pressure points to enhance ergonomic comfort. Its square-textured seat is easy to maintain and adds design flair.

Flow

The Ideal Group Size for Collaborative Learning

The *Alumni Flow Desk* was developed for traditional and modern teaching styles to help implement 21st Century Learning concepts into the classroom. Optional casters make these desks easy to pull apart for individual study and testing purposes or to move into multiple group configurations. In its ideal group configuration of 5, it can be rearranged to maximize the use of limited space commonly observed in today's classrooms. Full-frame construction takes the wiggle out of learning.

- **Standard Top:** Hard Plastic [No edgeband] (HP) or 1 1/8" High Pressure Laminate (HPL1)
  Optional Top: 3/4" High Pressure Laminate (HPL3), or 1 1/8" White Board with PVC (WHITEBOARD)
- **Standard Edge Band:** 2mm PVC Edge (PVC)
  Optional Edge Band: Armor Edge in limited colors (AE)
- **Standard Frame:** Fully welded table frame and leg assembly made of full perimeter 3/4" steel tubing welded to four 1 1/2" leg mounts designed to accept 1 1/8" O.D. round steel upper tube with inner round telescoping tube adjustable height 22"-30"
- **Optional Frame Height:** Fixed Height (22", 24", 26", 28", 30"), Junior Height (17"-25"), ADA Height (26"-34") or Standing Height (34"-42")
- **Standard Frame Finish:** 100% Polyester Premium Powder Coat Finish with Chrome Inserts (PC)
  Optional Frame Finish: Chrome (CH) or Black Chrome (BCH)
- **Optional Storage:** Solid or Perforated Steel Pass-Through Book Box (BB/PERF), Solid or Perforated Closed Steel Book Box (CBB/CPERF), Pass-Through Wire Shelf (WS), or Standard Width or Extra Wide Tote Rail System (TOTESW/EW)
- **Storage Finish:** Book Box Powder Coat only, Wire Shelf Powder Coat or Chrome, Tote Clear Plastic only
- **Standard Glides:** Marquis Nylon Swivel (M)
  Optional Glides: Marquis Neoprene Swivel (MN), Marquis Steel Swivel (MS), Q-Ball (QB), or Quiet (Q)
  Optional add-on to Marquis Glides: Felt Snap-On (FELT)
- **Options:** Bag Hook(s)(BH), and/or Two or Four Legs with 2" Black Dual Wheel Casters (BDWCA) see page 233 for full caster details

Idea

Where Concepts Come Together

The *Alumni Idea Desk* provides a central work area for collaboration, with the flexibility to offer a space in the middle for power and data capability. Casters make these desks easy to pull apart for individual study and testing purposes or to move into multiple group configurations. In its ideal group configuration of 5, it can be rearranged to maximize the use of limited space commonly observed in today's classrooms.

- **Standard Top:** 1 1/8" High Pressure Laminate (HPL1)

Boomerang

The *Alumni Boomerang Desk* was developed for traditional and modern teaching styles to help implement 21st Century Learning concepts into the classroom. Students can sit at the Boomerang Desk front-facing, or left or right-handed tablet style. Optional casters make these desks easy to pull apart for individual study and testing purposes or to move into multiple group configurations. In its ideal group configuration of 4, these desks fit together with no wasted space in the center and can be rearranged to maximize the use of limited space commonly observed in today's classrooms. Full-frame construction takes the wiggle out of learning.

- **Standard Top:** Hard Plastic with Embossed Pencil Groove [No edgeband] (HP) or 1 1/8" High Pressure Laminate (HPL1)
  Optional Top: 3/4" High Pressure Laminate (HPL3), or 1 1/8" White Board with PVC (WHITEBOARD)
- **Standard Edge Band:** 2mm PVC Edge (PVC)
  Optional Edge Band: Armor Edge in limited colors (AE)
- **Standard Frame:** Fully welded table frame and leg assembly made of full perimeter 3/4" steel tubing welded to three 1 1/2" leg mounts designed to accept 1 1/8" O.D. round steel upper tube with inner round telescoping tube adjustable height 22"-30"
- **Optional Frame Height:** Fixed Height (22", 24", 26", 28", 30"), Junior Height (17"-25"), ADA Height (26"-34"), or Standing Height (34"-42")
- **Standard Frame Finish:** 100% Polyester Premium Powder Coat Finish with Chrome Inserts (PC)
  Optional Frame Finish: Chrome (CH) or Black Chrome (BCH)
- **Optional Storage:** Solid or Perforated Steel Book Box (BB/PERF), Wire Shelf (WS), or Standard Width Tote Rail System (TOTESW)

Scallop

The *Alumni Scallop Desk* was developed for traditional and modern teaching styles to help implement 21st Century Learning concepts into the classroom. Optional casters make these desks easy to pull apart for individual study and testing purposes or to move into multiple group configurations. In its ideal group configuration of 5, it can be rearranged to maximize the use of limited space commonly observed in today's classrooms.

- **Standard Top:** Hard Plastic [No edgeband] (HP) or 1 1/8" High Pressure Laminate (HPL1)
  Optional Top: 3/4" High Pressure Laminate (HPL3), or 1 1/8" White Board with PVC (WHITEBOARD)
- **Standard Edge Band:** 2mm PVC Edge (PVC)
  Optional Edge Band: Armor Edge in limited colors (AE)
- **Standard Frame:** Fully welded table frame and leg assembly made of full perimeter 3/4" steel tubing welded to four 1 1/2" leg mounts designed to accept 1 1/8" O.D. round steel upper tube with inner round telescoping tube adjustable height 22"-30"
- **Optional Frame Height:** Fixed Height (22", 24", 26", 28", 30"), Junior Height (17"-25"), ADA Height (26"-34"), or Standing Height (34"-42")
- **Standard Frame Finish:** 100% Polyester Premium Powder Coat Finish with Chrome Inserts (PC)
  Optional Frame Finish: Chrome (CH) or Black Chrome (BCH)
- **Optional Storage:** Solid or Perforated Steel Pass-Through Book Box (BB/PERF), Solid or Perforated Closed Steel Book Box (CBB/CPERF), Pass-Through Wire Shelf (WS), or Standard Width or Extra Wide Tote Rail System (TOTESW/EW)
- **Storage Finish:** Book Box Powder Coat only, Wire Shelf Powder Coat or Chrome, Tote Clear Plastic only
- **Standard Glides:** Marquis Nylon Swivel (M)
  Optional Glides: Marquis Neoprene Swivel (MN), Marquis Steel Swivel (MS), Q-Ball (QB), or Quiet (Q)
  Optional add-on to Marquis Glides: Felt Snap-On (FELT)
- **Options:** Bag Hook(s)(BH), and/or Two or Four Legs with 2" Black Dual Wheel Casters (BDWCA) see page 233 for full caster details

Interactive Cafe Height

The *Alumni Interactive Cafe Height Table* is contemporary, versatile, and practical as a cafe height activity table. They can be arranged for both partnered and collaborative learning. The large work surface makes this table great for group activities. Three tables can be fit together to accommodate six students in its ideal configuration. Perfect for use with Cafe Height Stools.

High Density Stacking Chair

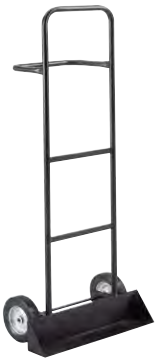

High Density Stacking Cart

The Alumni High Density Stacking Chair (HDS-SLED) and Cart (CART-CHAIR) offers a modern and sophisticated design. It stacks 10 high on the floor and 15 with the cart. From the library to the auditorium this chair will save space and look great with its integrated ganging feature.

UPC	Size	Wt. (lbs)
C-HDS-SLED18	Senior 18”	13.7
CART-CHAIR-HDS2340	23”x39”x38.5”	7

High Density Stacking Chair:

- Polypropylene molded Seat Shell and Back
- Sled-style frame constructed of 1/2” steel wire that is fully welded for structural integrity. An X-brace is formed on the underside of the seat for support
- Standard Frame Finish: Chrome (CH)
  Optional Frame Finish: Black Chrome (BCH)
- 18” Fixed height
- Glides: Vinyl Grip

High Density Stacking Cart:

- 17-Gauge round tube. Frame is 1” round in diameter
- Supportive L-Shaped bracket is an 11-Gauge.
- Frame Finish: 100% Polyester Premium Black Powder Coat Finish (PC)
- Stacks up to 15 chairs

Customer Support

Purchase Orders

Be sure to include the following when submitting a Purchase Order to orders@alumnicf.com:

1. Reference Quote ID [i.e. 24-12345]
    a. Include Freight Quote (if not included the current market rate at the time of shipping will apply)
    b. Consolidated rates will be handled by ALUMNI, please do not break out rates per order
2. Product Quantity
3. Product Code
4. Product Description
5. Color Choice (top, edge, table/desk frame, chair shell/frame)
6. Price for each item
7. Please provide Contract (State, co-operative) Number utilized if applicable

Terms

Standard invoice terms for credit accounts are NET 30 days. Orders are invoiced on the day of shipment.

Lead Times

Lead times will be confirmed by order acknowledgement within 48 hours of order receipt.

Freight, Delivery, and Installation

Freight Terms

ALUMNI CLASSROOM FURNITURE (hereinafter "ALUMNI") reserves the right to select the shipment methods and means (including, but not limited to, the determination of the carrier, and routing). Standard delivery shall be dock-to-door delivery and occur Monday through Friday, 8:00 a.m. to 4:00 p.m. for truckload or 9:00 a.m. to 5:00 p.m. for less than truckload or parcel. Customer shall be responsible for paying all extra freight expenses from any request for after-hours, holiday, weekend, or specific time delivery on all modes of transportation.

CAUTION: After obtaining a clear receipt for shipment, the delivering carrier is no longer responsible for damage or shortages.

Requests for Specific Delivery Times

ALUMNI considers requests for delivery times and for drop shipments to job sites and will undertake reasonable efforts to indicate any such requests to product carriers. ALUMNI may, in its sole discretion, extend to Customer the option of a carrier delivery service at an additional cost to Customer. ALUMNI'S liability for any damages incurred for any late deliveries, including labor and other expenses resulting from any such delays, shall be limited to a refund of the charges for the aforementioned delivery service.

Accessorial Fees

The Customer shall be responsible for the payment of all accessorial fees, including, but not limited to, charges necessitated by any of the following:

1. A need for special delivery equipment
2. Inside delivery
3. Denied/Refusal of Delivery
4. Redirection or re-consignment of product
5. Detention charges
6. Improper refusal of product

Storage of Product

If, following ALUMNI's acknowledgment of the purchase order, the Customer requests a delay in shipment for any period greater than (30) days from the scheduled ship date, the Customer shall be responsible for the payment of any storage and other charges caused or necessitated by the delay.

Split Shipments

Orders can be split shipped only with emailed or written authorization. If the split ship is approved, you agree to a change in the freight rate, reflecting the current market rate at the time of shipping.

Warranty

Please refer to the ALUMNI website www.alumnnicf.com for our current warranty statement.

Service Requests and Claims

Shipment Damage Claims

All products are packaged to comply with carrier requirements and leave ALUMNI'S Distribution facilities in good condition. Customer shall be responsible to:

1. Carefully inspect merchandise upon delivery. Make notations of package conditions and describe the damage observed on the carrier's delivery receipt.
2. If the delivery receipt has been signed free and clear and damage is discovered after the carrier has left, the customer shall report the concealed damage and request an inspection to the local carrier terminal within (5) five business days of receipt date.
3. Retain all shipping cartons for inspection by the carrier agent.
4. All damaged products and packaging must be kept at point of delivery.
5. Please submit all information to logistics@alumnicf.com

Customer Scheduled Pickup

ALUMNI will not be liable for loss or damage to product that occurs in transit, and Customer's sole remedy for any such damages shall be to seek appropriate recourse against the carrier.
Please note – Warehouse hours for customer carrier pickups are between 8:00am and 4:00pm and must be scheduled with logistics@alumnicf.com

Damaged Product Process

We continuously work to improve the packaging, handling, and delivery of your shipment. However, if you or your customer receive a shortage or damaged product, refer to the following freight claim procedure to expeditiously file and resolve a claim.

Upon Delivery

- Verify the delivery address is correct.
- Verify piece count and note on delivery receipt.
- Inspect the packaging for visible damage

Shortage at Time of Delivery

If the shipment is short, note the quantity of cartons or skids missing. Make sure the carrier signs all copies of the carrier bills. Carriers will not honor claims related to shortage after a shipment has been received without notation of shortage.
Once completed contact ALUMNI at logistics@alumnicf.com

Damage Noted After Delivery

If damage is noticed after the delivery receipt is signed "clear of damage" (aka concealed damage) follow these instructions:

- LTL Carrier: Concealed damage must be reported within 5 business days of delivery. Please send a detailed email to logistics@alumnicf.com reporting the damage. Record the time, date, and to whom the request is made. Packaging material must not be discarded, and the shipment cannot be moved from the original delivery address. If the shipment is moved from the original point of delivery, all freight claims become null and void. Take pictures of the damaged product and packaging.
- Truckload Carrier: Take pictures of the damaged product and packaging within 5 days of delivery. Please send a detailed email to logistics@alumnicf.com reporting the damage.

Shortage Claims

Shortage must be noted at the time of delivery to be considered a carrier claim. ALUMNI will evaluate Customer reported shortage claims within 5 immediately following delivery. Shortage claims reported beyond 5 days after delivery will not be honored.

Claims Submissions

A claim can be submitted using a web form from our website www.alumnieducationalsolutions.com under the heading of "Support" by following the link, "Service Request Claim" (www.alumnieducationalsolutions.com/service-request-claim) which captures all necessary information. Expectation is that a claim is to be filed with ALUMI within 5 days of receiving product. Anything received after 5 days is subject to potential denial of the claim. To engage with our Claims team, they can be reached at claims@alumnicf.com.

Order Cancellation and Returns

To work with our Customers, any consideration of any return of ALUMNI products can only occur when certain criteria are met:

1. ALUMNI will accept cancellation for a full refund on any ordered product if request is submitted within 24 hours of the order being received.
2. Orders that are already in production in our factory will be reviewed on a case-by-case basis to determine if it is a non-standard item that will have a 25% restocking fee applied for the cancellation or a full refund applied.
3. Product that is shipped incorrectly or not according to the specified purchase order, will be picked up and replaced by ALUMNI at no cost to the purchaser.
4. Product that is purchased incorrectly and is delivered exactly as stated on the purchase order will have a 25% re-stocking charge applied if it is requested to be returned to ALUMNI as well as any shipping costs incurred. This applies to common stock items only. The product must be unused and in a "like new" condition. Credit will be issued after returned product is inspected for damages.

ALUMNI reserves the right to accept or decline returns or order cancellations.

New Temple Texas showroom. Come visit us.

At Alumni Educational Solutions we are focused on providing our dealer partners with the right products, quality, services, and solutions bundled together to create the greatest value for our collective customers. We strive to be the manufacturer of choice when working to meet the needs of teachers and students across North America.

Our Vision is to see all students have equal opportunity to be educated in the most up-to-date classroom environments possible. We want to see each student given the opportunity to advance and take full advantage of the newest teaching methods.

CONTRIBUTING TO A GREEN PLANET

As a responsible member of the business community, it is our ambition to work towards easing the impact that manufacturing has on our environment. Our ongoing efforts are driving us towards sustainability as we are committed to leaving the environment better than we found it.

REDUCE. REUSE. RECYCLE.

Alumni applies a concentrated effort to the three R's within our production, packaging and shipment process. The result of our motivation is having a cleaner environment that produces less waste and uses as many recyclable materials as possible. The policy of Reduce, Reuse, Recycle is so important to us that even this catalog is printed on recycled paper.

Alumni has implemented a Safe Materials Testing Program (SMTP) to ensure that all materials that are used meet or exceed Federal Regulation. Our products are tested to meet ASTM, NEMA and Fed Spec Standards as well. Alumni uses Internationally Renowned Testing Labs to ensure product safety and quality.

We want our children to grow up in a healthy environment so that their children can do the same.

Alumni Classroom Furniture is compliant with the testing requirements in the Consumer Product Safety Improvement Act 2008.
