

Fellowes®

Elea®

The Chair That Moves With You

「Introducing Elea」

The chair that redefines sitting by seamlessly moving with your body while integrating with your workspace.

It will move you, literally.

Designed to Move

Elea challenges stagnation through movement while sitting. Elea moves with you.

OmniKinetic 
SUSPENSION TECHNOLOGY

Our patent-pending suspended seat inherently moves and adapts to your body—all while maintaining stability and comfort.

The premium aluminum chassis provides the strength needed for natural movement, balance, and durability.

Engineered to Suspend

Fellowes created a revolutionary chassis that suspends the seat freely—a concept never before seen on a chair.

Beautifully Crafted

The Elea chair was designed with every line and curve to be both aesthetically distinctive and pleasing—crafted with premium fabric and materials..

Move More, Feel Better

Start moving while sitting to enable continual movement throughout your day.
