Cipher[™]
Seating

Comfort Decoded

Unlock Your Productivity

From important client consultations to project planning to impending deadlines, busy professionals are required to meet more than a few expectations throughout the day. That's why easy support and intuitive performance should be status quo when it comes to your office chair—and Cipher seating goes above and beyond. With intuitive functionality and customizable controls, this smart, streamlined seating solution lets you focus on the task at hand instead of distracted by clumsy mechanisms and constant adjustments.

Inspired Design

There's nothing better than letting your imagination take flight. Whether it's vibrant colored lumbar and arm accents or distinctive contrast stitch options, you get to choose the subtle details that bring Cipher—and your space—to life. This dynamic multitasker is also available as a guest chair—now any private office, collaborative environment, or welcome area can benefit from the cool contemporary aesthetic and comprehensive performance Cipher was designed to deliver.

Features & Options

Customized Control is Within Reach

Everyone deserves the perfect fit and sit. With ergonomically-efficient independent lumbar support, added breathability of flexible 4-Way Stretch mesh, and intuitive weight-activated functionality, Cipher was crafted with customization in mind for a tailor-made experience unique to you and you alone.

Shown with Birk™ table.

Arm Options

Whether you need adjustable arms for added support or the sleek look of armless design (plus a variety of optional accent colors), the choice is yours.

ADJUSTABLE ARMS

ARMLESS

Lumbar Options

Maximum comfort is within reach with customized independent lumbar support.

LUMBAR

NO LUMBAR

Stitch Options

Add a pop of personality with an optional contrast stitch or go traditional with a fabric-matched clean aesthetic.

CONTRAST STITCH

FABRIC-MATCHED STITCH

"Primary inspiration for Cipher came from automotive design—using chiseled or cut bodystyling paired with angular trends in architecture, giving it a refined and sculpted look. We wanted Cipher to feel more personalized, so the user can select color accents in addition to the other frame, mesh, and upholstery color options. Controls are automatic or integrated into the chair to reduce clutter and complexity—making it easy for the customer to understand and use."

David Mehaffey
Industrial Design Manager at HNI Workplace Furnishings
