STUDENT SEATING

Flexible, mobile, and comfortable, KI student seating enables a wide range of teaching styles and adapts to a variety of applications and users.

CHAIRS

Offering flexibility, comfort, and durability for students of all ages, student chairs are crafted to encourage movement and engagement, featuring ergonomic designs that promote proper posture and reduce fatigue during long periods of use.

STOOLS

Elevated seating solutions allows for classrooms, labs and collaborative spaces to offer comfort and versatility at varying heights. With ergonomic features, flexible backrests, and a variety of styles, materials, and finishes standing-height seating adapts to any space.

TABLET ARM CHAIRS

Designed with an integrated writing surface, tablet chairs provide students with a convenient workspace, while maintaining ergonomic support for long-term use.

ACTIVE SEATING

Active seating solutions are designed to promote movement, engagement, and flexibility in learning and collaborative environments. They seating options encourage healthy posture and natural movement, helping students stay energized and focused.

MODULAR FOAM SOLUTIONS

Imaginasium Blocks & Blips are foam shapes that easily adapt to a range of interactive learning and teaching methods—experiential, experimental, play-based, floor-based, tiered seating, cocooning and more—to comfortably and creatively engage the littlest learners.

ESPORTS SEATING

Esports seating solutions are engineered to enhance comfort, engagement, and flexibility in gaming and collaborative environments. Seating options promote healthy posture and natural movement, helping players stay energized and focused during long gaming sessions.

STUDENT TABLES

With height adjustability and a variety of dynamic shapes, KI student tables energize and support today's agile, flexible classrooms.

ACTIVITY TABLES

Offering flexibility for students of all ages, Activity tables feature adjustable heights and versatile configurations that support a variety of learning styles and activities. Activity tables can be customized to meet the diverse needs of any educational environment, ensuring a dynamic and interactive space for students to thrive.

WORKTABLES

Offering unparalleled flexibility for students of all ages, Worktables are expertly designed for education environments. They can accommodate a wide range of experiments, projects, and collaborative activities.

TRAINING TABLES

Training tables accommodate a variety of learning methods, including lectures, U-shapes, or groupings. Optional nesting allows a classroom to easily clear space, and power options ensure digital devices and other technology stay charged.

CAFETERIA TABLES

Cafeteria tables can accommodate a wide range of activities, from meals to group discussions and collaborative projects.

STUDENT & TEACHER DESKS

KI desks offer timeless style to fit traditional, modern and future classroom applications, with configurability to allow for individual or group work.

STUDENT DESKS

Offering styles for students of all ages, student desks are designed to enhance learning and engagement. Featuring adjustable heights and versatile configurations, these desks support various learning styles and activities. With a range of material and color options, student desks can be customized to fit diverse educational needs, ensuring a functional and adaptable workspace for every student.

DESK/CHAIR UNIT

With its fully adjustable, dual-handed worksurface, Learn2 seating adapts to each student's personal space and provides customized comfort. Sleek, simple, and sturdy, Learn2 offers a timeless visual aesthetic and unmatched durability for any learning environment.

TEACHER DESKS

Teacher desks support various teaching methods and classroom layouts. With a variety of storage, materials, and color options, teacher desks can be customized to meet diverse educational needs, providing a functional and adaptable workspace for educators.

LECTERNS

Lecterns are designed with both style and advanced technology in mind, making them ideal for dynamic classroom lectures and engaging one-on-one discussions.

RUCKUS®

SHAKE UP THE LEARNING SPACE

It's a revolution of thought and action. It looks like nothing else. It can be used like nothing else. It's Ruckus: a simple, inspiring, and incredibly innovative collection that supports today's learning spaces.

The comprehensive collection encourages student engagement, adapts to people and places, and supports active hands-on-learning. With Ruckus, users can choose how they sit, learn, and interact, which ultimately enhances learning and performance outcomes.

STATEMENT OF LINE

Ruckus includes innovative 360-degree seating, responsive and configurable desks, tables in numerous shapes and sizes, storage and "show-and-tell" whiteboards. All elements are available in a variety of poly, paint, laminate, edge, and upholstery colors. Desks are available with glides, casters or a patented same-height glide/caster combo for movability. Together these elements create flexible, adaptable, organized learning environments.

COGNI™

A TOOL FOR ENGAGEMENT

Cogni is a comprehensive seating solution designed to enhance student engagement. Developed with educators, it prioritizes student choice, subtle movement, ergonomic comfort, sensory support, and classroom flexibility.

Its adaptive seat design and comfort ledge accommodate multiple sitting postures—upright, recline, lounge sideways, or backward—while the articulating frame provides responsive flex for added comfort. Innovative heel-wheel technology enables effortless mobility, supporting dynamic learning spaces. Cogni also features a patent-pending sensory surface, offering discreet tactile support. From classrooms to collaborative spaces, Cogni delivers both style and function for today's evolving educational environments.

STATEMENT OF LINE

Available in multiple styles and sizes, Cogni adapts to any classroom aesthetic and accommodates learners of all ages. Cantilever chairs (14-18"), four-leg chairs (12-18"), task chairs, task stools, and four-leg café stools are available in a variety of poly colors as well as upholstered seat pad materials. Base options include four replaceable glides, casters, and an innovative heel-wheel.

INTELLECT WAVE®

COMFORT ON A CURVE

Intellect Wave combines student comfort, product durability, and a clean aesthetic to promote active learning from the smallest to the tallest. Comprehensive seating and desking choices deliver design continuity while ensuring versatility in function and performance.

The unique curved design of the Intellect Wave chair enhances ergonomic comfort and responds to user position and postures. Its passive flexing back promotes movement that leads to better attentiveness and learning retention. Curved worksurfaces add comfort with increased belly room, Cantilever leg frames ease ingress/egress, which results in reduced footprints and greater classroom density.

STATEMENT OF LINE

Intellect Wave classroom furniture is all about flexibility and choice, making it easy to create the perfect learning environment. The collection includes seating, tables, and desking in a wide range of styles, sizes, and vibrant color options.

For seating, you can choose all-poly designs, seats with upholstery, or upholstered seat and back options. Task chairs and stools come with optional arms, while 4-leg chairs are available in extra small, small, medium, and large sizes—perfect for learners of all ages. Handy accessories like a wire book rack, rocker attachment, and chair dolly make storage and movement a breeze. Plus, Intellect Wave seat shells can be used with Learn2 seating and KI fixed seating for even more versatility.

Desking options include fixed or adjustable heights, with durable laminate or hard plastic worksurfaces. ADA-compliant desks are also available. Accessories like a plastic book box, wire book basket, and chrome book bag hook add functionality to any setup.

When it comes to tables, the variety of shapes is sure to meet any teaching or learning need—choose from rectangular, square, round, quarter-round, sixth-round, or kidney-shaped designs.

STRIVE®

SIMPLY VERSATILE

The simple, yet elegant design of Strive adapts to anyone in any space. Strive combines a slatted flex back and contoured curves to encourage movement, relaxation and enhanced circulation for longer sit times, better health, and increased productivity. It presents a clean aesthetic that extends through a comprehensive seating line. Strive provides a consistent look in a variety of interiors and blends with any architectural style.

STATEMENT OF LINE

Strive seating includes high-density, 4-leg and sled base stack chairs, tablet arm chairs with a variety of base styles as well as café stools, nesting chairs, task chairs and task stools. Strive is available as all poly, upholstered seat only, or upholstered seat and upholstered back on select models.

LIMELITE™

SOPHISTICATED STYLE WITH ELEGANT DETAILS

LimeLite seating presents a slim profile and contoured shape to elevate aesthetics and comfort in any environment. Featuring a unique, architectural shell design, LimeLite uses a specific blend of materials to provide inherent passive flex and contoured comfort. The seat back aperture provides stylish design distinction, and serves as an integral handle to ease lifting, moving and stacking.

STATEMENT OF LINE

The cohesive, extended seating line offers design consistency with high visual impact. LimeLite seating includes 4-leg and sled base stack chairs, high-density stack chairs and stools, nesting chairs, café stools, task chairs and task stools as well as 4-leg tablet arm chairs and ChangeUp tablet arm on task chairs.

LEARN2®

MOBILE ADAPTABILITY

Adept, flexible, and student-focused, Learn2 seating transforms learning environments. It goes wherever it's needed and can be arranged in any configuration imaginable. Learn2 facilitates individual work or small to large group teaming. It's exactly what students and teachers need and want for collaborative, and interactive learning spaces.

STATEMENT OF LINE

Learn2 seating offers four shell styles—Dōni, Intellect Wave, LimeLite, and Strive in all-poly or with an upholstered seat. The base is available without a rack, or with a choice of four styles: accessory rack, accessory rack with cupholder, flat accessory rack, or poly bookbag rack. All models are available with casters, glides, or front casters and rear glides. Adjustable non-handed tablet worksurfaces are available in either laminate or plastic.

RICOCHET™

ENGAGED LEARNING

Ricochet stools support student movement, which is essential for cognitive development. Featuring a rounded base for an active sit, Ricochet stools offer freedom to fidget, which can help keep bodies and minds engaged.

With its small scale and light weight, Ricochet is easy for students and teachers alike to carry and reposition as needed. When flipped the gently concaved top with waterfall edge nests with the convex base to stack up to three high. Available in one or two tone finish for designer freedom, or to add a pop of color to a space.

STATEMENT OF LINE

Ricochet comes in five heights from 12" to 20". Two-tone color options offer playful appeal while all-poly construction and a non-slip base design ensure durability and stability for years to come.

IMAGINASIUM® BLOCKS & BLIPS

PLAYFUL EARLY LEARNING

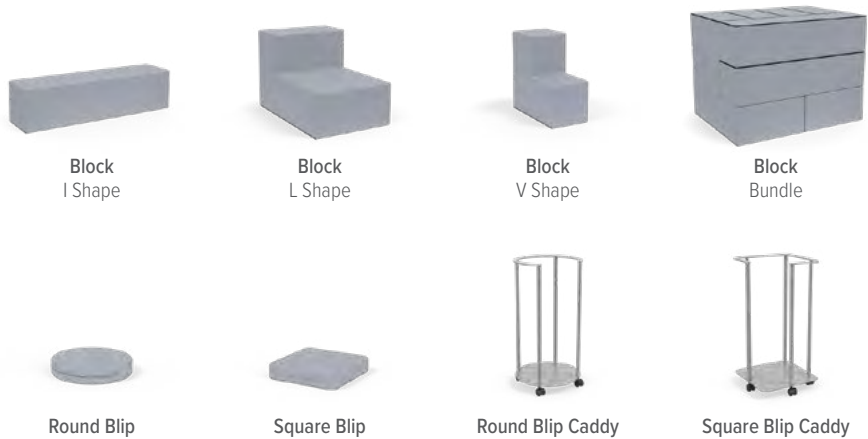

Imaginasium blocks and blips support play-based and experiential learning. Young learners move as they learn — up, down, and all around as they immerse themselves in the spaces around them. Blocks and blips are made of soft, supportive foam that is scaled for these young learners. Modular blocks are easy to maneuver and configure. Use them to divide learning spaces, create impromptu gathering nooks or “show and tell” about shapes. Easy-to-clean, high-performance vinyl with reinforced seams and industrial-grade zippers ensure that Imaginasium Blocks and Blips stand up to wear and tear.

STATEMENT OF LINE

Imaginasium blocks are designed in increments of 11" for modular configurability. Blocks are available in three shapes: I, L, and V; as well as bundles that consist of two I, two L, and four V shapes. Bundles store as a cuboid for more efficient space usage. Imaginasium blips are available as round or square and are ideally sized at 16", an optional handle for carrying, and stack 10 high in a mobile caddy. Easy-to-clean, high-performance vinyl is available in a variety of colors.

More options available.
View full details at ki.com/imaginasium

MYPLACE™

FLEXIBILITY FOR ACTIVE AREAS

The MyPlace Collection offers a combination of rectilinear and curvilinear modular units to create different configurations for a variety of spaces — from dynamic school libraries to forward-thinking cafés. Designed for high-traffic areas, MyPlace is extremely durable with a 400-pound weight rating. Its lightweight construction makes it easy to pull up an ottoman to join a conversation, or push units together for collaborative touchdown meetings.

STATEMENT OF LINE

Featuring, benches, ottomans, lounge seating, tables, and shelving in a variety of shapes and sizes, the MyPlace Collection offers functional space division while also supporting collaboration. Lounge seating available in four heights including backless, 32" low-back, 48" high-back, and 60" high-back. Ottomans and benches are available in a variety of shapes and sizes, including both junior and oversized ottomans. Power options are available on select models, and units can be specified with a range of base options. The active base option for select ottoman shapes can also provide subtle movement to encourage learning and engagement.

More options available.

CLAMBER™

DARE TO PLAY. DARE TO CLIMB. DARE TO CLAMBER.

With Clamber, every space becomes an opportunity for creativity and collaboration—an invitation to rethink how seating can shape a room. Designed with modular linear and curved shapes in multi-level configurations, Clamber offers a playful solution perfect for team collaboration, student learning, individual study, and relaxation.

Its versatility frees users from the ordinary. With reconfigurable units, tier top material choice, and replacability, Clamber invites you to continuously reinvent any dynamic environment, making it an adaptable, fun seating option for evolving spaces.

STATEMENT OF LINE

Unleash your creativity with Clamber's expansive statement of line, offering modular units, unique shapes, and endless possibilities. Explore options like contrasting upholstery, power integration, vibrant finishes, and custom thread colors to create a truly unique look. For added function, Clamber also offers a variety of laminate top and wall worksurface finishes to bring both style and utility to every design.

STOUT™

ROBUST FUNCTION

Stout tables were designed to meet the functional needs of STEAM-oriented learning environments and makerspaces. The rigid frame supports demands of high-traffic spaces and can be specified with a height-adjustable base, pegboard end panels, or hooks to accommodate user needs. Integrated power solutions ensure electronic devices stay charged for modern learning styles. Offered in four worksurface materials to meet the functional or aesthetic needs of any space.

STATEMENT OF LINE

Featuring a robust rectangular frame and steel perimeter apron for strength and support, Stout tables are available in fixed or adjustable height models and offer a wide range of worksurfaces including laminate, phenolic resin, butcher block or stainless steel. Accessories include pegboard end panels, bag or pegboard hooks. Tables can be specified in a variety of paint colors and are available with or without a footrest or a shelf. Sized from 24" x 48" up to 48" x 84".

PIROUETTE®

DYNAMIC DESIGNS FOR ADAPTIVE SPACES

Pirouette is a comprehensive table line that offers a variety of worksurface shapes, base styles and heights to help create cohesive and adaptive spaces. Pirouette offers fixed- and adjustable-height bases which can be specified with fixed or nesting worksurfaces. The unique design accommodates two-sided usage, giving ample leg room to those seated on either side of a table. Pirouette supports a variety of environments from classrooms and training spaces to innovation centers and cafés.

STATEMENT OF LINE

Pirouette is offered in a variety of base and top shape configurations to support many applications. Available in fixed or nesting T-Legs, C-Leg and X-Base, most tables are available in three standard heights: 29" standard, 36" counter and 42" café, and height-adjustable.
